linkedin.com/in/jordanlee

Product-minded engineer with six years building and shipping web platforms end to end, from the data model to the thing the customer actually clicks.

EXPERIENCE

Senior Engineer

Northwind Software / 2022 – Present / Austin, TX

- Led a four-person team rebuilding checkout, cutting cart abandonment 18%.
- Shipped a real-time notifications service handling 2M events a day.
- Cut median API latency from 420ms to 90ms by reworking the query layer.

Software Engineer

Halden Labs / 2019 – 2022 / Remote

- Built the internal analytics dashboard used by every product team.
- Migrated the API layer from REST to GraphQL with zero downtime.

SELECTED WORK

Ledgerline

Open-source double-entry bookkeeping library, 1.2k stars.

- Used in production by four fintech startups.
